Academic Qualifications

2003 University of Lisbon, Lisbon

Degree in Education of physics and chemistry Variant Physics
Final grade 14

2004 University of Coimbra, Coimbra/S. Miguel

Postgraduate course on "Minors Protection"

2009 University of Lisbon, Lisbon

Masters in Education with specialization in Information and Communication Technologies in education
Final Grade 17, Very Good

2011 Technical University of Lisbon, University of Lisbon, University of Aveiro & New University of Lisbon

e-Panning PhD Student

2011 London Knowledge Lab, Institute of Education, University of London

Visiting doctoral student

Other Qualifications

2011 Centre of Art and Visual Communication (AR.CO), Lisbon

Video editing

2007 European Organization for Nuclear Research (CERN), Geneva

CERN intern for secondary teachers in nuclear physics (theoretical and laboratory lessons in nuclear physics).
40 hours

2007 Training Center of Terceira, S. Jorge and Graciosa, Angra do Heroísmo

Training course "Web pages". 25 hours

2006 Training Center of Terceira, S. Jorge and Graciosa, Angra do Heroísmo

Training course "Project Management for the 12th grade". 25 hours

2006 Joint Research Centre European Commission, Ispra/Angra do Heroísmo

Training course "3rd course: eKAM School: Knowledge assessment and Extended Participation".

2006 Cine Angra do Heroísmo, Angra do Heroísmo

Workshop "The construction of the documentary". 15 hours

2006 Network cores of environmental education and environmental information in the region Macaronesian, Angra do Heroísmo

Training course "Third Course Free: "environmental education: the local as an educational resource". 10 hours.

2006 Regional Council of Education and Science, Angra do Heroísmo

Training Course "Methodology of work project". 25 hours

2006 Training Centre of Terceira, S. Jorge and Graciosa, Angra do Heroísmo

Training course "Physics in the new Secondary programs: modern physics, experimental physics and technologies". 25 hours

2005 Training Centre of Terceira, S. Jorge and Graciosa, Angra do Heroísmo

Training course "Designing WebPages with front page". 25 hours

2005 Training Centre of Terceira, S. Jorge and Graciosa, Angra do Heroísmo

Training course "Class Server Microsoft platform in the management of learning". 25 hours

2004 Training Centre of Terceira, S. Jorge and Graciosa, Angra do Heroísmo

Training course "Curricular Reorganization: how to render the not disciplinary curricular Areas ". 25 hours

2004 Training Centre for public administration, Angra do Heroísmo

Seminar "The environmental impact assessment procedure". 10 hours

2003 Space for the health of children and adolescents, Lisbon

Training Course "ill treatment of children and adolescents". 30 hours

2003 Space for the health of children and adolescents, Lisbon

Training Course "Adolescence – a multidisciplinary look". 30 hours

Projects**2004-2010 Coordinator of Eco-Schools Programme**

Secondary School Jerónimo Emiliano de Andrade, Portugal, through which developed projects in the area of environment. The school has won the Green Flag Award from the beginning by projects developed at school with the local community. <http://www.abae.pt/programa/ee/inscritas/lista.php>

2006-2007 Coordinator "Science, environment and life" Project

Secondary School Jerónimo Emiliano de Andrade, Portugal, supported by National Agency for sciences and technology, aiming to raise awareness to students by teaching of physics and chemistry through experimental activities based on science, technology, society and environment approach. This project involved students from 7 to 12 year, allowing transversality of knowledge's and its mobilization, as well as the use of new technologies in particular computer, interactive graphic frames, calculators, data loggers (Texas instruments and in multi-log), counters of radioactivity, Webcasting and use programs such as Word, Excel, power point, Windows Video Maker etc.

2006-2007 European programme "Eurolifenet"

Azores Coordinator, Portugal. The main objective is to enable students to do science, and, to bring closer researchers of social and environmental areas. Through this project, which aims at the systematic collection of parameters related to air quality using the new technologies, students and teachers involved have the opportunity to participate actively in a scientific study led by researchers from various institutions and reflect on their attitudes where they are part of environmental problems and their solution. Technologies used: computer graphics, calculators, sampling systems, GPS and Webcasting and webquest feature. Resorted to the use of programs such as Word, Excel, power point, Windows Video maker, front page, etc. Project partners: Research Centre of information technologies to a participatory democracy; the joint research centre of the European Union (IES/JRC Institute for Environment and sustainability, Joint research centre, European Commission (Ispra, Italy); living science, school of Education of Viana do Castelo, Faculty Technology CCDR-LVT Coordination Commission and regional development of Lisbon and Tagus Valley; Dept. of Sciences and environmental engineering, Faculty of science and technology, New University of Lisbon (ICSUL); Institute of social sciences at the University of Lisbon; Department of physics, University of Minho.

<http://eurolifenet.eu>

2005 -2006 Co-Coordinator in Portugal the campaign "Save O₃ Our Sky"

Campaign promoted by the United Nations for the preservation of the ozone layer. Prepared leaflets and posters. Organized the commemorative day of ozone layer (16 September) in two schools, Secondary School Pedro Nunes (Lisbon) and Secondary School Emiliano Jerónimo de Andrade (Angra do Heroísmo).

<http://www.yee.ecn.cz/ozone%20campaign.htm>

2005 – 2006 Eco-consumption

Coordinator of the week dedicated to renewable energies and eco-consumption, ESJEA. Drew up an action plan that has allowed the school become more efficient energy and more environmentally friendly. Launched several lectures on: ozone layer, Climate Change, alternative energy, etc.

2002– 2003 "People-citizenship" Project

Co-Coordinator of the European Union People-citizenship, coordinating the primary and secondary schools involved, promoted by the Centre for Research for information technologies to a participatory democracy, integrated into the European programme PEOPLE promoted by the Joint Research Centre, IESJRC the European Union. This project has the aim of promoting citizenship through a scientific study to investigate the personal exposure to benzene, inside and outside.

**Professional
Experience**

2004-2010 Secondary teacher of Physics and Chemistry

Secondary School Jerónimo Emiliano de Andrade, Angra do Heroísmo

2007-2010 Coordinator of school subject “Project Management”

Secondary School Jerónimo Emiliano de Andrade, Angra do Heroísmo

2008-2011 Teachers Trainer of Physics and Chemistry; Educational Innovation; Citizenship Education and Project Management.

Taining Centre of Terceira, S. Jorge and Graciosa, Angra do Heroísmo

2005-2006 Intern Pedagogical Supervisor

Secondary School Jerónimo Emiliano de Andrade, Angra do Heroísmo
